## Professional Summary

I'm José Imhoff, a Junior Frontend Developer with 1.5 years of experience. I'm known for strong attention to detail and the ability to perform repetitive tasks with precision and consistency. I have good communication skills, a proactive attitude, and a strong team spirit. I'm deeply committed to continuous learning, which allows me to quickly adapt to new tools and development environments.

## Professional Experience

### **Web Developer – Electro Rafaela**

*January 2025 – May 2025*

- Developed an institutional website (without e-commerce) using Next.js, Firebase, and Tailwind CSS.
- Improved site performance by 35% and manually uploaded over 500 products (images and descriptions).
- Ensured responsive design and cross-browser compatibility.
- Maintained clear communication with non-technical stakeholders.

### **Junior Full Stack Developer – My WORK (Remote)**

*March 2022 – February 2023*

- Maintained internal systems using PHP and SQL.
- Implemented dynamic forms, PDF generators, and document automation.
- Improved data entry processes by 30% and helped reduce technical debt.
- Worked in remote agile teams (Scrum) with strong collaboration and communication.

## Education & Certifications

- Technical Degree in Programming – UTN (2015–2020)
- Full Stack Web Development – Coderhouse (2022–2023)
- Data Analysis with Power BI – Coderhouse (2024)
