

JOSÉ IMHOFF

Junior Full-Stack Developer (Backend-leaning)

Node.js / TypeScript | REST APIs | PostgreSQL | Docker | Swagger/OpenAPI

Rafaela, Argentina | +54 3492 516734 | jose-imhoff@hotmail.com | LinkedIn: linkedin.com/in/joseimhoff | GitHub: github.com/Josel11 | Portfolio: portfolio-imhoff.vercel.app

PROFILE

Junior Full-Stack Developer with a backend focus (Node.js/TypeScript, REST APIs, Swagger/OpenAPI, Docker, PostgreSQL). Delivered a production website with Next.js/React + Firebase Realtime Database (500+ product catalog) and measured Lighthouse performance (Desktop 92, LCP 1.8 s). Currently learning Python.

TECHNICAL SKILLS

Backend: Node.js, TypeScript, Express, REST APIs, Swagger/OpenAPI, Docker

Frontend: React, Next.js, HTML5, CSS3, TailwindCSS, Bootstrap, Responsive Design

Databases: PostgreSQL, MySQL, Firebase Realtime Database (NoSQL)

Tools: Git/GitHub, Postman, Jira, Scrum

Learning: Python

PROFESSIONAL EXPERIENCE

Web Developer (Next.js / React) | Electro Rafaela — Rafaela, Argentina | Jan 2025 - May 2025 | On-site (Project)

- Developed an institutional website featuring a 500+ product catalog integrated with Firebase Realtime Database.
 - Implemented JSON-based listings and filters; managed content operations (100+ products updated, 50+ images standardized).
 - Lighthouse (product showcase): Desktop Performance 92 (LCP 1.8 s), Mobile Performance 70 (LCP 9.7 s), SEO 100.
- Technologies: Next.js, React, TailwindCSS, Firebase Realtime Database.

Full-Stack Developer (PHP) | MyWORK — Rafaela, Argentina | Mar 2022 - Feb 2023 | Remote

- Maintained and implemented new features across 5-10+ client websites using PHP and Bootstrap-based front end.
- Refactored existing codebases and applied iterative MySQL improvements for stability/performance; used Git for version control.

Technologies: PHP, MySQL, Bootstrap, Git.

Administrative Assistant | AGT Automatizaciones — Rafaela, Argentina | Mar 2023 - Oct 2024 | On-site

- Managed documentation in digital portals and organized operational information (Excel, Word, email).

PROJECTS

Order Management System (2025) | Repo: github.com/Josel11/order-managment-system-solve-test

- Built a Node.js/TypeScript REST API with PostgreSQL (Prisma), documented with Swagger/OpenAPI and dockerized (app + DB).
- Implemented backend pagination/filtering; frontend developed with Angular 19 + Angular Material.

Technologies: Node.js, TypeScript, PostgreSQL, Prisma, Swagger/OpenAPI, Docker, Angular.

EDUCATION

Higher Technical Degree in Programming — Universidad Tecnológica Nacional (UTN), Rafaela, Argentina | 2020 (Completed)

COURSES & CERTIFICATIONS

Spring Boot & Java — Alura Latam + Oracle (2025) | Python Introduction — Santander Open Academy (2025) | Full Stack MERN — Coderhouse (2023) | EF SET English Certificate — B2 (2024)

LANGUAGES

Spanish: Native | English: B2 (EF SET, 2024)
