## SUMMARY

Web developer with hands-on experience in client and company projects. I build web applications and integrate systems through APIs using JavaScript, React and Node.js, with a focus on performance and user experience. I use AI tools to speed up development, always reviewing and testing the generated code. Open to remote work, with strong communication, initiative and commitment to deadlines. My administrative background helps me understand business needs and turn them into practical solutions.

## TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, Python (basic), PHP
- **Frontend:** React, Next.js, Vite, Tailwind CSS, Bootstrap, responsive design, Figma (basic: implementing components from designs)
- **Backend & integrations:** Node.js, Express, REST APIs, Firebase, MySQL, Google Apps Script
- **Tools & methodologies:** Git, GitHub, Postman, Docker, Vercel, Agile/Scrum
- **AI-assisted development:** GitHub Copilot, Claude, ChatGPT, with review and validation of generated code

## EXPERIENCE

**Sales Associate (part-time)** | Electro Rafaela | Rafaela, Argentina *May 2026 – Present*

**Freelance Web Developer** | Estación Fitness | Rafaela, Argentina *Mar 2026 – Apr 2026 (Hybrid)*

- Designed and built a responsive website with React, Vite, TypeScript and Tailwind CSS, deployed on Vercel.
- Connected the site's prices to Google Sheets so they can be updated dynamically without changing code.
- Automated individual and general reports with Google Apps Script, and digitized student registration with Google Forms and Sheets.

**Web Developer (Next.js, React)** | Electro Rafaela | Rafaela, Argentina *Jan 2025 – May 2025 (On-site)*

- Built a web application with React, Next.js and Firebase Realtime Database to manage a catalog of 500+ products.
- Improved performance with lazy loading and image optimization, reducing load times.

**Administrative Assistant** | AGT Automatizaciones | Rafaela, Argentina *Feb 2023 – Oct 2024 (On-site)*

- Managed digital documentation and data records using Excel, Word and business platforms, keeping information organized and accessible.

**Full Stack PHP Developer** | MyWORK | Rafaela, Argentina *Mar 2022 – Feb 2023 (Remote)*

- Developed and improved features across multiple web applications using PHP and Bootstrap to meet client requirements.
- Optimized MySQL queries and database structure to improve application stability and performance.
- Used Git for version control, supporting teamwork and change tracking.

## PROJECTS

**Estación Fitness** | React, Vite, TypeScript, Tailwind, Google Apps Script | Demo: www.estacionfitness.com
Website for a local gym with digital student registration, automatic reports and prices editable from Google Sheets, with no code changes. Built end to end.

**Product catalog – Electro Rafaela** | React, Next.js, Firebase Realtime Database
Web app to manage and update a catalog of 500+ products, with lazy loading and image optimization for faster load times.

## EDUCATION

**Associate Degree in Programming (Tecnicatura Superior en Programación)** | Universidad Tecnológica Nacional (UTN) | 2020

## COURSES & LANGUAGES

**Courses:** Full Stack MERN Development – Coderhouse (2023) | Python – Santander Open Academy (2025) | WordPress & Elementor – In progress (2026)
**Languages:** Spanish (native) | English (B2, EF SET English Certificate, 2024)
